COMMUNICATION

Dear Sir:

This will make of record the content of a telephone conversation between Applicants' representative, undersigned, and Examiner Ngo on April 18, 2003.

Applicants thank Examiner Ngo for discussing the status of prosecution in the Application, and for agreeing to a further course of action.

Applicants' representative pointed out that claim 10, which had been added by Amendment filed September 19, 2002, had apparently been overlooked in an Office action mailed November 11, 2002. Applicants' representative additionally pointed out that the November 11, 2002 Office action set out a basis for rejecting only independent claim 1, and that neither the first Office action nor the November 11, 2002 Office action had particularly addressed the patentability of the dependent claims.

The Examiner agreed to issue a new Office action, to replace the Office action mailed November 18, 2002, and to reset the time for reply. No response to the November 18, 2002 Office action is required, and the time for reply to the replacement Office action is to be measured from

the mailing date of the replacemnt Office action. The Examiner agreed to consider, in the replacement Office action, all the claims in the application; and to state his reasoning regarding the patentability of all the claims in the application, including the independent claims.

In view of the fact that the November 11, 2002 Office action is to be replaced with a further action, and accordingly no response is due to the November 11, 2002 Office action, it is believed that no extension of time or fee is required to maintain the pendency of the application.

Applicants again express their appreciation to Examiner Ngo for his quick response to Applicants' representative's inquiry in this matter, and for his willingness to take the course of action outlined above.

If the Examiner determines that a conference would facilitate prosecution of this application, the Examiner is invited to telephone Applicants' representative, undersigned, at the telephone number set out below.

Respectfully submitted,

Bill Kennedy
